- React / NextJs
- Django
- VueJs / Nuxt
- Javascript
- HTML & CSS
- Rust
- Claude Code, ChatGPT, Agentic workflows
- RAG, PineconeDB, LangChain
- NodeJS
- Linux
- Tanstack
- SQL, DynamoDb, ElasticSearch, Postgres,
- Cloud Technologies (AWS)
- Git
- SCSS, Tailwind, Bootstrap
- Rest APIs
- Microservice Architecture
- Docker, Terraform
- Vitest, Pytest, Jest, Playwright

Languages

Native:

French, Italian, English

Expert:

German, Spanish

Work Experience

September 2025 - Present

Full Stack Developer

[VDPResearch](#), Employee

- Built an admin back-office from scratch to trigger and monitor real estate data pipelines using Django and React
- Increased test coverage from 20% to 80% on a client-facing Python application using Pytest, in compliance with ISO27001 standards
- Implemented Docker containerisation and microservices monitoring, reducing issue identification time

August 2024 - September 2025 (20h /month contract)

Ful Stack Developer

[CampNerd](#), Freelancer

- Integrated Stripe payment system from scratch into a Vue.js campground booking platform
- Automated invoice processing pipeline handling hundreds of invoices monthly using Django, reducing manual workload
- Integrated Sevdesk via REST API for centralised invoice storage and monitoring

June 2024 - September 2025

Full-stack Developer

[Coasy GmbH](#), Employee

- Developed and deployed new CMS features using Typescript, Next.js and DynamoDB
- Improved existing agentic workflows using the ChatGPT API to automate customer support workflows, reducing email backlog from about 90%
- Reduced first-load JavaScript bundle size by ~600KB across three components, improving page load performance
- Implemented new KPIs to improve backend process monitoring and observability

October 2023 - June 2024

Full-stack Developer

Freelance

- Redesigned and optimised zirkusmond.de frontend using TailwindCSS on a Django backend
- Migrated production database from SQLite to PostgreSQL, improving reliability for a platform selling ~20,000 tickets annually
- Integrated Stripe as an additional payment method, expanding checkout options for ~20,000 yearly transactions

October 2014 - August 2023

Freelance performance artist and teacher

- Created a compelling repertoire of performance pieces, showcasing a range of lengths and styles, including contemporary circus, theatre, and mime. Performed in various prestigious venues and festivals across Europe and Asia.

Education

February 2023 -

January 2024

**Full-Stack Web
Development Program**

CareerFoundry, Online Course

October 2011-
June 2014

**Bachelors of Science
In Psychology**

University of Exeter, UK
